LABOUR INFORMATION SERVICE.

e Employment Exchange (No. 3, Lady Curzon Road, alore) has been as usual earnestly endeavouring to serve mployers and the employment seekers in meeting their ctive wants. The figures relating to employment seekers placements for the month of May 1949 as well as ncies reported and persons submitted for employment as ared with those for April differ appreciably. The ber of placements registered a fall by 44. Whereas for nonth of April, it was 90, it was 46 for May, comprising Ex-servicemen, 21 women, 19 others.

e number of persons submitted for employment was 336 ig April and 479 during May. This latter figure com- s of 179 Ex-personnel and 309 others. Perhaps with a ier measure of co-operation by the employers, the result d have been more satisfactory.

against 1,145 employment seekers during April, there 871 during May, out of whom 161 were Ex-servicemen, women and 679 others.

The number of vacancies reported from employers was 186 during the month under review comprising of 171 from Government Departments and Concerns and 15 from private parties.

The number of persons on the Live Register at the end of the month was 12,389, out of which 3,310 represented Ex-servicemen and the rest others.

The potentialities of the Employment Exchange in helping to organize profitably and purposefully the man-power available are immense. Apart from the limited function of placement, it opens out a vista of possibilities for organizing the entire economy of the nation on the basis of man-power potentialities. Further, it provides useful information to all employers about their man-power requirements which no other Institution can do as comprehensively. It is hoped that the fullest use of the organization will be made by the employers, for, on their co-operation depends not only their well-being but also that of the State.

Press Note.

Dated 21st June 1949.

There appears to be some misapprehension in the minds of the public that fresh bus services are being granted by the ore Traffic Board merely on the presentation of applications. Government would therefore like to clarify the position.

In the Press Note issued on 22nd April 1948, it was stated that in pursuance of the Scheme of Nationalisation of Road sport in the State, Government had decided as a first step to take over all or at least some of the bus services running at ent between Bangalore and other places in the State. In accordance with this decision of Government, the owners of s who have been running their services to and from Bangalore were requested to surrender their lines and to select native lines in lieu thereof, if so desired, as Government thought that the stopping of their services which have been ing from a very long time would hit them hard.

Government are glad to note that there has been ready response to this request. Many bus owners have come forward to erate with Government in implementing the Scheme of Nationalisation and offered to surrender their existing services thing Bangalore. A list of bus owners who have so far surrendered their existing bus lines between Bangalore and other es and who have been granted alternative bus lines is noted below.
